

All Saints' Day School Carmel, California

All Saints Day School was a buzz with a number of activities during their Zero Waste Week campaign. For example, second grade students created a “Recycle City” where they reimaged and rebuilt cities using recycled and repurposed materials. All Saints’ Fifth graders participated in beach clean-ups at Carmel Beach as well as conducted a waste audit on campus. The entire school community was invited to share their ideas for next year’s Zero Waste Week by adding their Zero Waste Week Post-its on a “Zero Waste Challenge” board. Overall, All Saints worked hard to grow their “Zero Waste WEEK” into a “Zero Waste WAY”!
